

DIGITAL REQUIREMENTS

PRINT AND ADVERTISING

• For Use In Printed Marketing Materials:

Line art (vector files)

CMYK format with all fonts turned to outlines. Any dimension is acceptable. *AI or EPS files only.*

Photos: (raster files)

RGB format only and 300 dpi min. with 4" x 6" or larger size. File must be in native format and not previously formatted for web use. *PSD or JPG files only.*

Black and white files saved as GREYSCALE only.

Copy:

All text should be submitted in either MSWord (.doc or .docx) or a text file (.txt). If special formatting is required (such as bold, underline, italic), kindly also submit a low-resolution PDF of the document for viewing purposes.

• For Use in Printed Advertisements:

Line art (vector files)

CMYK format with all fonts turned to outlines. Any dimension is acceptable. *AI or EPS files only.*

Photos: (raster files)

RGB format only and 300 dpi or higher with 8" x 8" or larger size. File must be in native format and not previously formatted for web use. *PSD or JPG files only.*

Black and white files saved as GREYSCALE only.

We can accept artwork created in the following softwares, as noted for each project type listed here:

Adobe Suite CS5 which includes *Illustrator, InDesign, Acrobat and Photoshop*. Previous versions back as far as Suite CS3 are also acceptable. We can accept copy/text in MSWord and MSPowerPoint.

If your files are formatted in MSPublisher, CorelDraw, AppleWorks, PageMaker, Quark or IWorks – Call for assistance.

Please send no TIFF, BMP or PNG files for any project.

• For Use in Billboards and Large Signage:

Line art (vector files)

CMYK format with all fonts turned to outlines. Any dimension is acceptable. File should not have embedded photos within it. *AI or EPS files only.*

Photos (raster files)

RGB format only and 1200 dpi minimum with dimensions at least 1/2 the size of the determined actual outer dimensions of the billboard. File must be in native format and not previously formatted for web use. *PSD or JPG files – PDF in final format, high quality resolution, saved in exact dimension of billboard at 1200 dpi or larger.*

• For Use on Merchandise/Embroidery

Line art (vector files)

CMYK format with all fonts turned to outlines. Any dimension is acceptable. File cannot have embedded raster objects within it (photos). *AI or EPS files only.*

Photos (raster files) **Call for assistance.**

- *All color vector content should be in CMYK mode unless Pantone colors are required for branding purposes.*
- *All BW content should be saved as "greyscale."*
- *Do not apply crop or registration marks, bleeds or notations on any files.*
- *All images should be minimum 300 dpi and submitted in the file formats recommended here.*
- *Bitmapped or website images and logos are **NOT** acceptable for print projects.*
- *Submit to us using our FTP (below, preferred), on a CD, or via email to your account rep. Include contact info.*

Positive Impact Partners is not responsible for printing errors occurring from low quality images or scans.

CALL FOR OUR FTP LOGIN WHEN MATERIALS ARE READY.
